The 3D-XplorMath Consortium

This program is Copyright 2013 by Richard Palais and Hermann Karcher. All rights are reserved.

The latest version of the program is always available at the URL: <http://3D-XplorMath.org> . Please let us know of any problems you encounter as well as any suggested improvements, preferably by email to: palais@uci.edu

You may transfer copies to others and it may be placed on LAN servers of non-profit educational and research organizations. (However, please always make available the full distribution folder, including all of the documentation and examples.)

You are welcome to use this program for non-commercial personal use, and also for research and educational purposes in a non-profit academic setting. This includes the right to make as many copies as are reasonable for these purposes.

If you would like to license this program for some commercial purpose, please contact us to make appropriate arrangements.
